

EMPOWERING ENTERPRISES TO TRUST AND ACT ON DATA

Transform Your Data
into Insights That Drive Decisions

Enterprises today face growing pressure to become truly data-driven. Yet, they struggle with fragmented systems, poor data quality, inconsistent governance, and limited visibility across their data estates. The result? Slower innovation, higher risk, and missed opportunities in the face of market demands.

Cloud adoption and platforms like Snowflake and Databricks have accelerated digital transformation but without a strong foundation of trusted, governed, and actionable data, enterprises still fall short of realizing the full potential of their investments.

“60% of enterprises risk failing in their AI initiatives due to weak data governance.”

- Gartner

INFERYX PLATFORM UNIFIED. INTELLIGENT. SCALABLE.

INFERYX HELPS ENTERPRISES BRIDGE THIS GAP.

Our Data Intelligence Platform is a unified, low-code, AI-driven solution that empowers your teams to discover, integrate, govern, and analyze data at scale, seamlessly working alongside Snowflake, Databricks, and your existing infrastructure.

At the heart of Inferyx is a modern, low-code platform, designed to simplify even the most complex data challenges. It brings together three tightly integrated capabilities - Data Catalog, Data Engineering and Data Analytics, each essential to building a truly intelligent, trusted, and actionable data foundation.

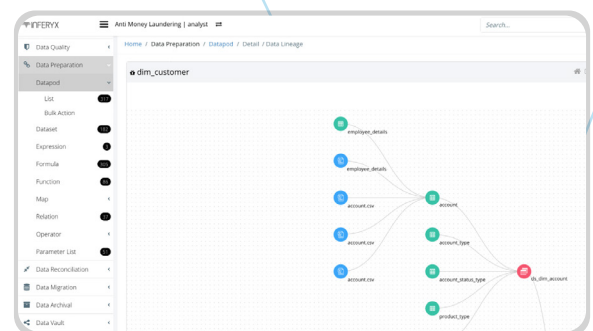

By 2026, 65% of enterprise applications will be built using low-code/no-code platforms.”

- Gartner

DATA CATALOG: DISCOVER AND TRUST YOUR DATA

A strong data strategy begins with knowing what data you have, where it lives, and how it flows. Inferyx's intelligent Data Catalog makes this possible by automatically scanning, indexing, and organizing your enterprise data into a unified metadata repository. It brings instant visibility and trust to your data assets across cloud or hybrid environments.

KEY HIGHLIGHTS

- Centralized Metadata Repository
- Automated Discovery And Classification
- Intelligent Data Search For Assets
- Business Glossary And Domain Definitions
- End-To-End Lineage And Impact Analysis

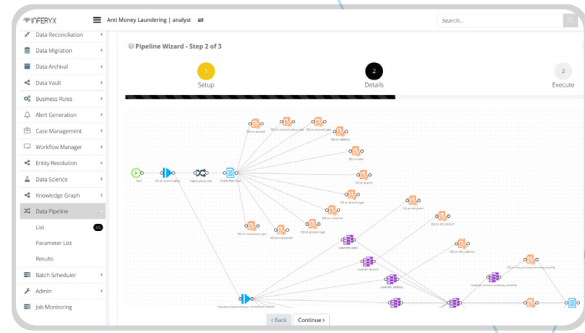

83% of enterprises cite seamless integration across diverse data sources as the top factor in data platform selection.”

- Forrester

DATA ENGINEERING: BUILD RESILIENT PIPELINES, FASTER

Data engineering is critical to delivering clean and trusted data across the enterprise, yet traditional pipelines are slow to change. Inferyx enables low-code engineering workflows that accelerate pipeline development while maintaining scalability and reliability. Helps you keep pace with evolving data needs.

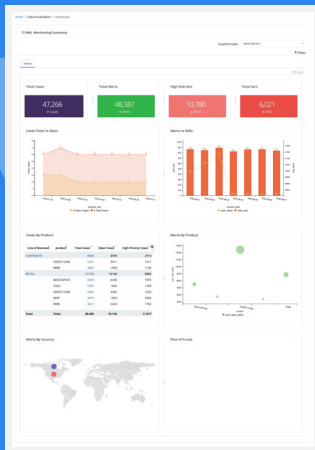

KEY HIGHLIGHTS

- Drag-And-Drop Workflows
- Batch And Real-Time Pipelines
- Automated Data Quality Checks
- Simplified Archival And Retention
- Library Of Pre-Built Connectors

“Organizations with automated deployment & monitoring pipelines report 40% faster time-to-market.”

- Deloitte

DATA ANALYTICS: TURN DATA INTO COMPETITIVE ADVANTAGE

Ultimately, data must drive action. Inferyx enables organizations to go beyond dashboards, delivering advanced analytics, predictive modeling, and even generative AI - all fueled by clean, governed, and trusted data. This empowers teams to move from reactive reporting to proactive, insight-led decision making across business operations, customer engagement, and strategic planning.

“Data lakehouse architectures will be adopted by 75% of enterprises, driven by a need to unify analytics with governance.”

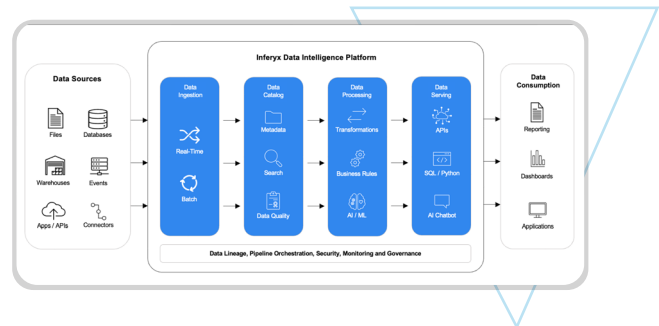

- IDC

KEY HIGHLIGHTS

- BI Dashboards And Visualizations
- ML, Predictive And AI Pipelines
- Business Rules And Real-Time Alerts
- Knowledge Graphs And Relationships
- Generative AI Insights

INFERYX: BUILT FOR THE FUTURE OF DATA-DRIVEN ENTERPRISES

Inferyx empowers modern enterprises to deliver on the promise of data-driven transformation with a scalable, low-code platform that is flexible, cloud-native, and future-ready. It accelerates innovation by unifying data management, governance, and analytics into a seamless, intelligent ecosystem

KEY HIGHLIGHTS

Low-Code, AI-Driven Development

Broad Integration Ecosystem

Embedded Governance And Security

Cloud-Agnostic And Hybrid Deployment

Real-Time Monitoring

“Organizations that integrate governance and cataloging into cloud data strategies are 2x more likely to succeed with AI.”

- Forrester

MEASURABLE IMPACT, DELIVERED

WHY LEADING ENTERPRISES CHOOSE INFERYX

With its cloud-agnostic, scalable, and modular architecture, Inferyx fits seamlessly into your current environment whether on-premises, in the cloud, or hybrid.

OUR CUSTOMERS RELY ON INFERYX TO:

- Improve time-to-insight by 40%
- Reduce compliance-related risks by 50%
- Lower data management costs by up to 30%

“Enterprises adopting AI-driven, low-code governance platforms saw up to 40% faster compliance readiness and a 30% drop in costs.”

- Forrester

READY TO TRANSFORM YOUR DATA INTO YOUR STRONGEST ASSET?

Let's talk about how Inferyx can help your organization build a trusted, governed, and analytics-ready data foundation and deliver better business outcomes.
